Eco-friendly and compact black & white MFDs

Increasing your office productivity while simultaneously reducing your environmental impact may appear to be a paradox, but the MP 2553SP/MP 3053/MP 3053SP/MP 3353/MP 3353SP enable you to meet both objectives. These A3 black-and-white multifunction devices incorporate Ricoh's latest controller to give you features to transform your productivity. These include Searchable PDF, ID Card Copy, and extensive scan/fax capabilities. At the same time, a short warm-up time, low power consumption and standard duplex make these compact MFDs environmentally responsible.

- Advanced controller powers value-added functionalities
- Energy-saving features reduce operating costs
- Compact, with built-in finisher
- Fast, efficient and productive
- Easy to operate and maintain

Multi-function. Multi-benefit

Improved productivity

Ricoh's advanced GWNX controller powers features that improve productivity. Save time searching for documents with Searchable PDF. Scan in colour and send to email, folder, USB, SMB, FTP, URL and NCP. To fax, choose from Internet Fax (T.37), IP-Fax, LAN-Fax, PC-Fax, G3-Fax or remote faxing. Network connectivity is built-in as standard, and @Remote gives you internet-based support for remote management.

Speedy, yet compact

The MP 2553SP/MP 3053/MP 3053SP/MP 3353/MP 3353SP are up and running in virtually no time at all, thanks to a warm-up time of only 15.5 seconds, and a first copy/print speed of 4.5 seconds. Yet, they are surprisingly compact forsuch high-spec A3 MFDs. One reason is the built-in finisher which avoids the necessity for an external finisher.

Green, from start to finish

The Ricoh line-up has been designed with the environment in mind. Paper-saving features include print preview, quota setting, paperless fax and standard duplex. The Eco Friendly Indicator displays usage status in a pop-up screen. TEC values are extremely low, reducing power consumption and CO_2 emissions. In addition, these devices comply with the latest Energy Star and BAM directives.

Remarkably easy to use

Operating these MFDs is a delight. The large, tiltable LCD screen displays clear, animated menus with buttons that are easy to read and use. The screen can be customised for each user with selectable icons, and the keyboard is available in QWERTY or AZERTY. Routine trouble shooting and maintenance tasks are performed simply via full front access. They print from USB memory stick or SD card, while the HDD has a high memory capacity which saves you time during printing.
